

RUDRAYAMX PRIVATE LIMITED

Industrial Production Management SaaS Platform

www.rudrayam.com | contact@rudrayam.com

About Us

RudrayamX Private Limited is an Industrial Production Management SaaS Platform helping manufacturing businesses digitize and manage production, analytics and operations in real-time across multiple plants. We provide enterprise-grade tools — including multi-plant management, role-based access control, real-time production tracking, automated analytics and secure cloud architecture — built specifically for modern Indian manufacturers.

Our Vision

To be a globally recognized Industrial SaaS platform empowering Indian manufacturers to digitize operations, scale efficiently and lead in the modern industrial economy.

Our Mission

To deliver secure, innovative and performance-driven production management solutions — ensuring every manufacturing client achieves measurable operational success from Day 1.

Platform Features

Enterprise-grade, multi-level architecture built for scale.

Feature	Description
Real-Time Production Tracking	Live dashboard across all plants with real-time updates, operator tracking and timestamp entries.
Multi-Plant Management	Manage multiple factories centrally with plant-wise data, independent operations and one dashboard.
Advanced Analytics Engine	AI-powered KPIs, efficiency metrics, plant comparison and performance insights daily & monthly.

Role-Based Access Control	Super Admin, Admin, Supervisor, Operator and Worker — secure hierarchical access at every level.
Inventory Management	Complete tracking for raw materials and outputs with stock logs, usage history and low-stock alerts.
Mobile + Web Sync	Android app for workers + web dashboard for admins with seamless real-time data synchronization.
Smart Alert System	Detect production issues, low inventory and downtime — notify the right team members instantly.
Enterprise Security	Firestore with client-level isolation, secure queries, role-based rules and complete audit logging.

Our Services

- **Android Development** — Native Android app for workers with production entry, role-based access and real-time sync with web dashboard.
- **Web Development** — Modern responsive web platform for admins and managers with enterprise-grade performance and dynamic UI/UX.
- **Production Management SaaS** — End-to-end Industrial Production Management: tracking, analytics, inventory and multi-plant control.
- **Analytics Dashboard** — AI-powered daily and monthly reporting with KPIs, efficiency metrics and plant-wise performance comparison.
- **Implementation & Onboarding** — Complete setup, team training and go-live support. Get your factory live on Rudrayam within 1 week.
- **24/7 Technical Support** — Dedicated expert support ensuring smooth operations from Day 1 with direct founder access.

Why Choose Rudrayam?

- ✓ **Innovation First** — Always ahead with latest tech and best practices, building for tomorrow.
- ✓ **Client-Centric Approach** — Your success is our priority. Every solution tailored to your specific needs.
- ✓ **7-Day Free Trial** — Start risk-free. No credit card, no commitment. See value before you pay.

- ✓ **Scalable Architecture** — From 1 plant to 100 plants, same platform, zero migration needed.
 - ✓ **Quality Assured** — Rigorous testing at every stage. Every deliverable meets highest standards.
 - ✓ **Dedicated Support** — Round-the-clock support with direct founder access. Always available.

Company Highlights

Our Leadership

Deepak Singh Gautam

Founder & CEO — RudrayamX Private Limited

Deepak is the strategic visionary behind RudrayamX Private Limited. With deep expertise in Android Development, Web Technologies and AI-driven solutions, he leads the technology strategy, system architecture and product innovation. His leadership is centered on building scalable, secure and performance-oriented digital products — ensuring every solution reflects quality, reliability and modern design standards. He drives RudrayamX's mission to digitize Indian manufacturing operations and build world-class industrial software.

Suvesh Kumar

Co-Founder & CTO — RudrayamX Private Limited

Suvesh is the operational and technical backbone of RudrayamX Private Limited. With strong expertise in UI/UX design, digital services and project execution, he drives operational growth, client management and business development. He ensures seamless coordination between technical development and client expectations — building strong client relationships and delivering scalable, client-centric solutions. He is the engine behind client success and long-term growth strategy at RudrayamX Private Limited.
